

Conflict Minerals Declaration

Re: Section 1502 Dodd Franck Act

We hereby declare that WISTRO does not use any Conflict Minerals (Tantalum, Tin, Gold and Tungsten) from the Blacklist Countries as indicated in Section 1502 of the Dodd Franck Act.

This declaration is based on our internal Material Management System.

WISTRO requires suppliers to disclose the composition of all supplied goods.

If Conflict Materials are used, WISTRO demands documentation of the origin of the material.

Details of the composition of materials are held in a materials database.
